Summary

Versatile programmer trained in Full stack web development motivated by hard work and the passion for building things. Valued and driven collaborator with a thirst for knowledge and a knack for analyzing data and prioritizing to achieve consistent results.

Skills

Programming: Angular, Express, Node, C#, HTML, CSS, JavaScript, jQuery, API's, PostgreSQL, Microsoft Visual Studio, Microsoft SQL Server, ASP.NET Web API, Entity Framework, Bootstrap, Responsive Web Design, Language Integrated Query (LINQ), Object-oriented Programming, MVC frameworks, Documentation, RESTful API, Debugging.

Software/Dev Tools: Mac OSX, Windows, Terminal, Brackets, Sublime, Git, Github, Trello, Bower, Gulp, NPM, Sketch, Heroku, Adobe Photoshop, Illustrator, Microsoft Office.

Languages: Spanish

Web Development Experience

Team Vuori - Carlsbad, CA, December 2016 – February 2017

github.com/VuoriOCAproject

Full Stack Developer

Worked on a team to develop a custom CMS for a local eCommerce apparel brand.

Our task was to access an FTP site to extract and transform CSV data files from an ERP and hit specific endpoints on their point of sale (POS) system's API to load the data into one database to be accessed via custom UI.

Responsible for the ETL process and mastering the documentation for the API.

Technologies Used: React, Express, Node, PostgreSQL, JSON, FTP, OAuth2, ERP, ETL, Lightspeed Retail API.

Origin Code Academy (OCA) – San Diego, CA, November 2016 - February 2017

Web Development Immersive Student

Full-stack web development program focused on the fundamentals and best practices of full stack web development.

Core focuses in the class include client-side development using HTML, CSS and AngularJS, server-side development using .NET 4.5, C#, ASP.NET Web API, Entity Framework and SQL Server, with a secondary focus on full-stack JavaScript development using the MEAN stack. Below are some of individual and collaborative projects:

• **ListIt** - github.com/ListIt

A web application to help users buy and sell items locally.

Technologies used: Angular, Microsoft SQL Server, ASP.NET WEB API, Entity Framework, C#, Bootstrap, JSON, LINQ, Animate.CSS, Toastr, Filepicker, Auth, Bower, Gulp, GitKraken, Trello.

• **Mashape Project** - github.com/CorralesD/01-MashApeProject

A project that allows you to search the definition of a hashtag and displays Gifs that contain the searched hashtag.

Technologies used: Angular, Bootstrap, jQuery, Tagdef API, Giphy API, Mashape, GitHub.

Work Experience/Education

Origin Code Academy (OCA) – San Diego, CA, November 2016 - February 2017

Full Stack Web Development

Hour of Code (code.org) – San Diego, CA, December 2016

Introduced CS basics in a format that was fun at Franklin Elementary in San Diego.

Wawanesa Insurance - San Diego, CA, April 2008 - November 2016

Inside Claims Rep II

Alliance One - San Diego, CA, January 2006 - April 2008

Skip Trace/Collection Agent
